

Teaching + Learning: Accommodating ALL Learners

Tools and Techniques to Reach and Teach All Learners

In this research-based course, strategies, resources and tools for reaching and teaching all students whether online or in the classroom are shared. Teachers engage with both content and other learners while gaining insight into both their learning and teaching preferences as well as the learning styles of their students.

The course is highly interactive with several types of activities including self-directed interactivities, discussion forums where teachers can interact with other teachers if they wish, an online journal for note taking and reflection, and searchable glossaries and resource lists.

Our Promise

Professional Learning Board™ courses provide research-based, relevant, effective, respectful and timely professional development delivered cost-effectively for education professionals.
